# MyEROAD Dashboard

## One screen, multiple fleet metrics

**MyEROAD Dashboard makes your EROAD experience easier and more powerful to use by introducing a mobile-friendly suite of widgets to give you key fleet metrics on a single view dashboard.**

EROAD's fleet management solution helps you to take the wealth of data your fleet generates every day and turn it into easy-to-understand reports that provide actionable insights for your business.

MyEROAD Dashboard enables immediate access to your data on easy-to-view cards, accessible anywhere via desktop, tablet, or mobile, and provides the same seamless experience no matter where you log in.

Our customizable dashboard displays multiple fleet metrics through widgets, specifically created to show the status of your fleet and your driver Leaderboard.

MyEROAD Dashboard provides you with the best data available to help you make critical business decisions, and gain the competitive advantage you need to keep your business performing, day in, day out.

### SEE YOUR FLEET METRICS IN ONE SCREEN

With the single view dashboard, get ahead of overdue licenses and services to prevent penalties and potential vehicle downtime

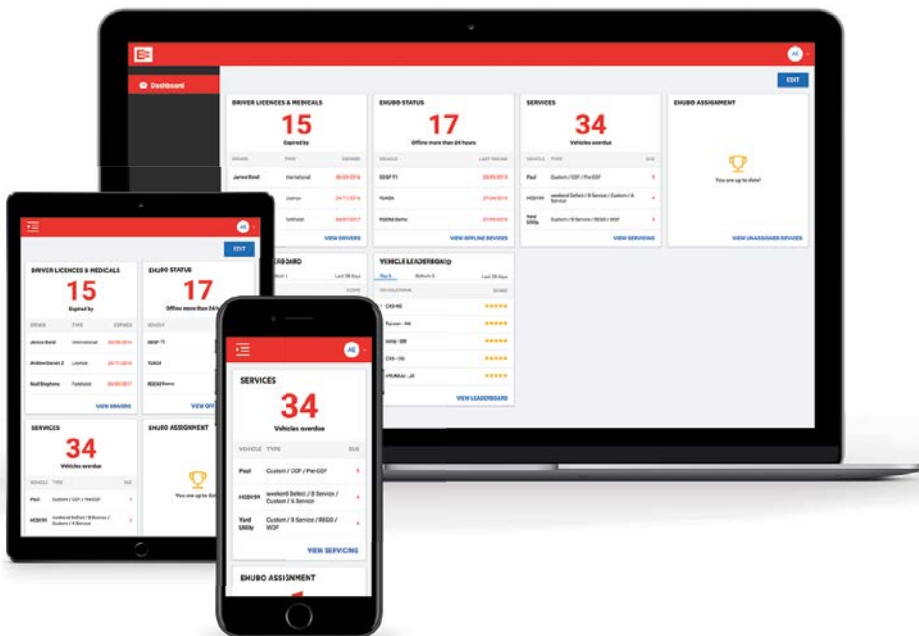

### SAVE TIME

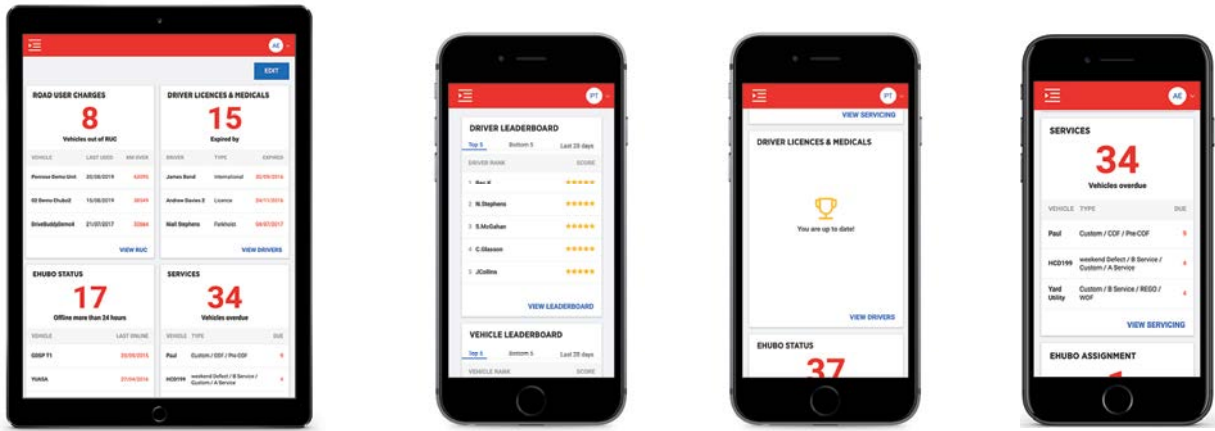

Customise the dashboard to display metrics critical to running your fleet

### MANAGE ON THE GO

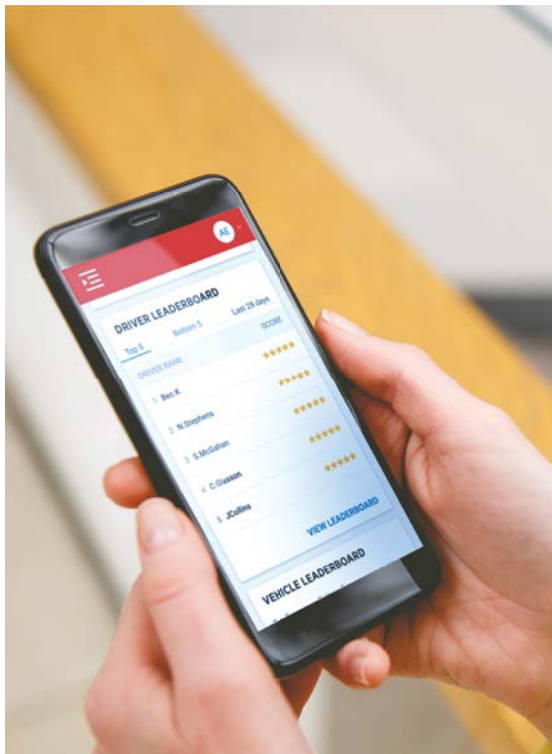

Access the dashboard from your mobile device anytime, anywhere

- ✓ Ability to customise, to reflect different user's fleet responsibilities
- ✓ A clear view into the condition and status of your fleet
- ✓ MyEROAD Dashboard widgets provide easy and effective solutioning

### About EROAD

EROAD develops technology solutions (products and services) that manage vehicle fleets, support regulatory compliance, improve driver safety and reduce the costs associated with driving. EROAD also provides valuable insights and data analytics to universities, government agencies and others who research, trial and evaluate future transport networks. This data enables those who use the roads to influence the design, management and funding of future transport networks.
